Subject: LUB GWMA/Nitrates notes today - corrected dates

Thanks for today's check in discussion. We confirmed our plan forward (with approximate dates) is:

- Now Tony schedule a quick update briefing for the RA and DRA for around April 24th.
- Now through 4/17: Engage in follow up conversations with single state agency contacts
 - OHA – Mat to set up; include Jeff, Peter and Clark
 - ODEQ – Jeff to set up; include Mat, Peter and Clark
 - ODA – Nick to set up; include Mat, Jeff, Peter and Clark
- 4/21-22 Peter lead the finishing of the letter to agencies: by 22nd based on discussions above. Peter will forward letter to OECA and OGC for quick turnaround comment.
- 4/22-24 Team update RA and DRA with status of agency conversations and final letter to be sent
- 4/23-24 send letter, requesting response (within 30 days, May 25th?)
- 4/24 As soon as the letter is sent to the state agencies, then Clark reach out to the petitioners. Let them know we are continuing to gather and evaluate information and let them know we want to schedule a meeting with them (timed for a few days after we expect replies from the state agencies. Consider reminding them of the LUBGWMA Second Action Plan comment closing date of May 8th.
- 5/24 Team receive and begin evaluation of state agency replies
- Evaluate responses from agencies and determine next steps
- Last week of May meet with petitioners

If the discussions with states is finished significantly before 4/17, we might be able to move the timeline up some.
